

Introducing

Hands On Connect

The Next-generation Volunteer Management Solution
from Points of Light Institute and HandsOn Network

HandsOn Connect is a full lifecycle volunteer management platform that expands your capability to manage, track and report on people, programs, trainings and volunteer opportunities in real time.

HandsOn Connect uses Salesforce.com, the leader in web-based CRM (Customer Relationship Management), to support the broadest model of volunteer management in the marketplace.

It's available to any organization that wants a comprehensive data management system for volunteer engagement and project management without the need to buy and update software or hardware. Because it's completely web-based, there is no software installation or hardware purchase required.

AS EASY AS IT LOOKS

A clean, modern, attractive and intuitive user interface makes it easy to use for volunteers, corporate partners and nonprofit organizations..

WORKS WITH ALL MODELS OF VOLUNTEER ENGAGEMENT

HandsOn Connect supports both the managed project and referral models of volunteer engagement. Built on more than 10 years of best practices in volunteer management, HandsOn Connect allows the widest range of event and volunteer management practices in one product.

REGULAR UPDATES LET YOU DO MORE

Salesforce.com will augment functionality with quarterly updates made available to HandsOn Connect subscribers at no additional cost. HandsOn Network is also committed to expand native functionality with its own regular enhancements and releases.

HANDSON CONNECT MEETS ALL YOUR DATA MANAGEMENT NEEDS:

- **EXPANDABLE** - Increase functionality with options from 800+ apps in the App Exchange at Salesforce.com - for fundraising, accounting, sales and bulk mailing.
- **CUSTOMIZABLE** - Work with outside developers to meet your specialized needs.
- **INTEGRATABLE** - Volunteers can easily share and recruit friends through one click integration with dozens of social networks, including Facebook and Twitter. HandsOn Network can export your data for integration with national volunteer opportunity aggregation sites.
- **POWERFUL** - Built on the nation's largest and most reliable CRM platform -. HandsOn Connect is fast, stable and provides state-of-the-art tools for importing, managing, maintaining and reporting on your data.

More information on HandsOn Connect and recorded product demonstrations can be found at www.HandsOnConnect.org

HandsOnConnect

HANDSON CONNECT'S FUNCTIONALITY SUPPORTS THE FOLLOWING AREAS:

REPORTING & IMPACT TRACKING

Integrates with applications for fundraising, accounting and sales.
Makes it easier to report on impact.
Enables easy creation of customized reports on any and all data using an advanced reporting system.
Creates custom visual dashboards, charts and graphs to make it easy to "tell a story of impact."
Scheduled delivery of reports and dashboards, enabling information sharing across the organization.

ADMIN TOOLS

Opportunity to expand functionality with regular updates and releases at no additional cost.
Ability to work with outside developers to meet your specialized needs if they are beyond what is offered by Salesforce.com and HandsOn Connect.
Permits online registration and approval of nonprofit partners.
Allows integration of salesforce.com applications, with hundreds of tools on topics including financial management, fundraising, bulk email, etc.
Permits custom reports, templates and dashboards, eliminating the wait for canned reports.
Provides document storage and management.

SPONSOR & DONOR MANAGEMENT

Ability to sell ads that are visible whenever volunteers search for related opportunities.
Supports segmented and personalized emails.
Manages access to invitation-only opportunities.

WEBSITE MANAGEMENT

Public website features include:

- opportunity search engine
- opportunity sign-up and management
 - team creation and management
 - volunteer profile and service history management

Integrates easily with social media, such as WordPress blogs, Facebook and Twitter

VOLUNTEER MANAGEMENT

Supports all activities of HandsOn Action Centers: recruitment, orientation, training, placement, follow-up, feedback surveys and special events.
Manages public and private opportunities.
Lets volunteers filter and search all opportunities locally or nationally by skills or interests, or date using calendar feature.
Automates signup and approval processes.
Restricts signups based on parameters (like background checks).
Links to social media, allowing volunteers to post on Facebook, Twitter and other platforms.
Provides volunteer profiles, photos and civic transcripts.
Permits emailing of targeted campaign messages to volunteers.
Manages parental permissions and waivers.

TEAM MANAGEMENT

Allows the creation of teams for corporations, neighborhood groups, etc.
Supports signups for public and private teams.

SPECIAL EVENT MANAGEMENT

Groups opportunities by event.
Makes aggregated reporting possible.
Makes auto-generated communications easy.
Allows a company to sign up and organize its own employees.
Tracks fundraising activities.

OPPORTUNITY MANAGEMENT

Lets volunteers enter their skills and availability to more quickly match needs and interests.
Supports approval process for volunteers.
Manages sign-up restrictions.
Wait-lists volunteers when a project is full.
Supports service opportunities, training, volunteer recognition, special events and other activities.
