

Skills-Based Volunteer

Volunteer Role Description and Skills Needed

Business Unit name: _____ **Project Manager:** _____

What are the context and the purpose of the Volunteer project? (Max 5 lines; it should be attractive, described as a consulting project)

What does the volunteer role involve? (Please try to define the various steps/phases of the project)

What skills, experience, expertise or talents are needed for this role?

Is there a very specific request about a particular skill (for instance knowledge of specific software)?

Comments (Any information concerning volunteer availability, timing, geography mobility, or possibility to work in remote or not, etc...)
